Applaud

Creative Top Cover Stitch Serger

Creative Top Cover Stitch and Chain & Cover Stitch Options

Once again, Baby Lock sets the standard and revolutionizes your sewing experience! The Applaud's Creative Top Cover Stitch has expanded both functional and creative opportunities when using the Cover and Chain Stitches.

Dual Wiper System for the Creative Top Cover Stitch

Watch the Applaud's dual wiper system deliver thread back and forth in front of the needles and over the fabric surface to create the Creative Top Cover Stitch. Choose to thread both wipers or only one wiper for the selected stitch. For a functional look use an overlock thread in either both wipers or one wiper. For a custom look, place a decorative thread in either both wipers or only one wiper.

Needle Up/Down Function

Whether using the Needle Up/Down key to advance forward in the fabric, start on fabric, form a single or partial stitch, or program the needle(s) to stop in the down or up position this feature allows you precise positioning of the needle(s) at all times during a project.

Speed Control Lever

With a speed of 1500 stitches per minute, you can control the machine's speed for various sewing tasks. Whether you like to sew quickly or need to slow down for precise decorative techniques, the Applaud's speed control lever allows you to stitch at your own pace, giving you complete freedom and control.

Automatic Thread Delivery (ATD)

With the ATD system on the Applaud, the exact amount of thread is delivered for the Chain or Cover Stitch variations regardless of thread type or stitch length.

Adjustable Presser Foot Height and Drop Feed System

The Drop Feed System is a must when working with delicate and high-loft fabrics. Simply raise the presser foot, and the feed dogs lower automatically making it easy to position your fabric under the presser foot. Using the Presser Foot Pressure Dial, adjust the presser foot pressure higher or lower for a fabric type or creative technique and return to standard position with ease.

Advanced Chain/Cover Stitch Features
